English — Vocabulary Unit 5 · Grade 6

# The Storm at Camp Pine

Use Unit 5 words for the first 12 answers, without a word bank. Write one word in its base form; spelling counts. For the last 8 questions, choose the most precise answer. Allow 15–20 minutes. Check your answers after both parts.

> You are at Camp Pine when a storm changes the day's plans. Follow the crew through the storm and think carefully about what each word adds to the scene.

## Part 1 — Find the word

Write one Unit 5 word in each gap. There is no word bank. All 12 answers are different.

1 The cook visits for the summer, but Jo lives at the camp all year. Jo is a permanent _____ of Camp Pine.

> **Answer:** inhabitant
> An inhabitant lives in a place. Jo is more than a visitor or a worker who comes for a season.

2 After a long hike without lunch, you finish two sandwiches and ask for three more. You are _____.

> **Answer:** ravenous
> Ravenous means extremely hungry. The amount of food and the missed meal show the strength of the hunger.

3 Food is ready, but the leader must also plan shelter, water, and transport. Food is only one _____ of keeping the camp safe.

> **Answer:** facet
> A facet is one aspect of something with several aspects. Food is one part of the larger safety plan.

4 Another team offers you a prize to abandon your crew. You refuse and stay with them through the storm. Your _____ to your crew does not depend on rewards.

> **Answer:** fidelity
> Fidelity means loyalty or faithfulness. Staying when a reward tempts you to leave shows that loyalty.

5 The empty dining hall is silent until a chair rocks by itself. Nothing seems quite normal. The hall feels _____.

> **Answer:** eerie
> Eerie describes a strange, unsettling feeling. The unexplained movement makes the scene more than simply quiet.

6 A rope rubs against a rough branch. Tiny loose threads appear along its edge. The rope is starting to _____.

> **Answer:** fray
> To fray is to come apart at the threads or edges. The loose threads matter, rather than a change in the rope's length.

7 You try to fix the tent zipper without checking it. Now both sides are stuck. A rushed attempt can _____ a repair.

> **Answer:** bungle
> To bungle a task is to do it badly or clumsily. The attempt makes the repair go wrong.

8 Two campers are shouting about the broken tent. You listen and help them settle down before making a plan. First, you need to _____ them.

> **Answer:** pacify
> To pacify people is to calm them when they are angry or upset. Listening settles their anger before the practical work begins.

9 Families cannot see the team moving the tents. On the radio, you explain each move as it happens. They follow your live _____.

> **Answer:** commentary
> A commentary describes and explains an event. Here it follows the action as it happens.

10 The rain starts at 2 p.m. and stops at 5 p.m. Your report records three hours as its _____.

> **Answer:** duration
> Duration is the length of time something lasts. Three hours describes the rain from its start to its end.

11 Everyone is leaving the wet camp. You stop for one last look and fall behind. The leader calls, "Do not _____!"

> **Answer:** tarry
> To tarry is to linger or delay leaving. The pause holds up your departure.

12 At home, you turn ten pages about the storm into five sentences covering the main events. You send this _____ to the camp newsletter.

> **Answer:** synopsis
> A synopsis is a brief account of the main points of a story or text. Five sentences replace the longer account.

13

## Part 2 — Look more closely

Choose the word that best fits the whole scene, rather than just one detail.

Think back to the hike. A sudden pain makes you stop and cry out. It disappears after treatment. Which word stresses how sharp and severe the pain was?

- persistent
- acute
- familiar
- dull

**Answer:** acute
Acute stresses the sharp, severe pain. Persistent means continuing; this pain stops after treatment. Familiar concerns recognition, and dull suggests a less sharp pain.

14

A camper has no plan. Instead, he shouts, "Obey me or you will regret it!" His threats change nothing. Which verb best describes his speech?

- persuade
- negotiate
- warn
- bluster

**Answer:** bluster
To bluster is to speak with loud, threatening force but little effect. Warn can mean giving a useful alert about danger; here the empty threats replace a plan. Negotiate involves discussion, and persuade means convincing someone.

15

A camper sees the damaged bridge and hears the leader's warning. She insists on crossing because nobody can tell her what to do. Which word best captures her attitude?

- headstrong
- determined
- independent
- adventurous

**Answer:** headstrong
Headstrong stresses refusing advice and insisting on your own way. Determined suggests commitment to a goal; the key detail here is rejecting a clear warning. Independent and adventurous do not necessarily imply that refusal.

16

After holding an icy bottle, you cannot tell whether someone is touching your fingertips. Which word describes this loss of feeling?

- stiff
- aching
- numb
- weak

**Answer:** numb
Numb means having little or no feeling. Stiff concerns difficulty moving, aching means feeling pain, and weak concerns lack of strength. The touch test points to sensation.

**17** Someone claims the storm destroyed every tent. Your photo shows two undamaged tents. What can you do with this evidence?

- question
- investigate
- doubt
- refute

> **Answer:** refute
> Refute means prove a claim wrong. Questioning or doubting it expresses uncertainty; the photo actually disproves the claim about every tent. Investigating means looking for evidence, which you already have.

**18** You secretly hid a friend's boots as a joke. Seeing your friend struggle in wet socks, you feel deeply sorry for what you did, even before anyone blames you. Which feeling is central?

- remorse
- disappointment
- embarrassment
- anxiety

> **Answer:** remorse
> Remorse is deep regret for your own wrongdoing. Embarrassment concerns feeling awkward or ashamed, especially about how you appear. Here your concern is the harm you caused, before anyone blames you.

**19** One damaged tent delays the camp's opening by a day. Repairs are possible and the project continues. Which word most precisely describes the effect on progress?

- defeat
- failure
- setback
- cancellation

> **Answer:** setback
> A setback delays progress or makes it harder. Failure could describe something going wrong, but setback specifically describes the recoverable interruption to this continuing project. Defeat and cancellation suggest a final outcome that has not happened.

**20** Your tent stayed dry. You smile at the others and say, "Naturally. Mine is always better than yours." Which word best captures this annoying self-satisfaction?

- confident
- smug
- proud
- relieved

> **Answer:** smug
> Smug adds excessive, annoying satisfaction with yourself. Proud can describe reasonable pleasure in an achievement; the claim of superiority adds the negative attitude here. Confident means sure of yourself, and relieved means less worried.
